## Our Value-Added Services

### Resume Mining

We source resumes from dozens of specialized sites to find candidates who meet your client's expectations.

**Local search: \$1,325; National search: \$2,500**

### Candidate Contact

We contact qualified candidates, tell/sell them about the candidate's position, answer one or two elementary questions (for instance, the salary range) and determine whether the candidate would like to be contacted by the client to learn more about the position.

**\$30 per phone call**

### Resume Review

Rather than having ad responses go to you, they come to us. We review each resume and determine whether the client is worthy of further consideration. We send 'thank you for applying' letters to all candidates and rejection letters to unqualified candidates. Approx. 10 minute interviews.

**\$100 per hour**

*(includes Resume Review with Candidate Screening)*

### Candidate Screening

After a client is deemed qualified by virtue of their resume; and initially contacted to ensure their interest, a JAA PeopleSearch interviewer will conduct an in-depth behavioral interview with the candidate to further assess their candidacy. Screening can take place on the phone, in our offices or on-site at the client location.

**\$100 per hour**

*(includes Resume Review with Candidate Screening)*
